	MAINTENANCE RECOMMENDATIONS
•	Remove sediment when it reaches the design storage depth.
•	Remove any debris that may accumulate in or immediately upstream of the basin.
•	Maintain vigorous growth of desirable vegetative coverings. This includes reseeding, fertilization, and controlled application of herbicides when necessary. Periodic mowing may also be needed to control height.
•	If fences are installed, they shall be maintained to prevent unauthorized or livestock entry.
•	Immediately repair any vandalism, vehicular, or livestock damage to any earth fills, spillways, or outlets.
•	Repair spalls, cracks and weathered areas in concrete surfaces.
•	Repair or replace rusted or damaged metal and paint.
